Important note

How to read the list

HOW TO READ THIS LIST

This list shows the creators who shared Dyson content in the last 30 days; each card states the type of evidence for the post. The 'Strong signal' and 'Mention' classes are not confirmation of a paid collaboration. Only Instagram's paid-partnership label is the brand's own declaration. News, discount and shop accounts (78) were not added to the list.

Collaboration evidence	E1 or E2 is present; or, in the same row, E3 together with E4, E5 or E6.
Strong signal	E5 or E4 is present; or two or more Dyson posts carry E6.
Mention	All other matches.

Scope, evidence and class

Short method

SCOPE AND MATCHING

Universe
Turkish Instagram creators tracked by Starlecta; Reels, stories and posts. Period 3 Oct – 1 Nov 2026 (TRT, 30 days).

Matching
Hashtag, @mention and tag matches for Dyson; dyson.com.tr links in stories. The brand's own account was not counted.

Base
Dyson: 1,064 account-content rows (338 Reels, 709 stories, 17 posts) from 643 accounts. News pages and deal, discount and shop accounts (78 accounts) were not added to the list; the remaining 565 creators are the base of this report. A post published jointly by two tracked accounts is one content item and two rows; no Dyson row is such a post.

Note
The creators on the cards are the accounts that published the post; a brand relationship is confirmed only by Instagram's paid-partnership label. The Strong signal and Mention classes are not confirmation of a collaboration.

Product lines and tags
This report also covers product-line tags (#dysonairwrap etc.) and brand tags in stories; the panel counts only verified brand tokens and links.

Figures
View counts were read from Instagram on 2 Nov 2026; for the 13 Dyson Reels that could not be read, the first recorded measurement was used (base 338 Dyson Reels). Reels views are Instagram-only views. Instagram co-author information is taken from the post's own response where available.

Segment
Nano <10K, Micro 10K–100K, Macro 100K–1M, Mega 1M+ followers.

RELATIONSHIP CLASS

Collaboration evidence	E1 or E2 is present; or, in the same row, E3 together with E4, E5 or E6.
Strong signal	E5 or E4 is present; or two or more Dyson posts carry E6.
Mention	All other matches.

EVIDENCE (ROW COUNTS, WITHIN 1,064 DYSON ROWS)

CODE	EVIDENCE	REELS	STORY	POST	TOTAL
E1	Paid-partnership label Instagram label	2	0	0	2
	Paid-partnership label: @dysonturkiye Dyson tagged as sponsor (strongest)				0
E2	Dyson co-author A Dyson account is a co-author of the post	0	0	0	0
E3	Ad disclosure (#reklam/#işbirliği/#tanıtım) In the post or Reels caption, no organic note	118	0	9	127
E4	Dyson link dyson.com.tr link; in stories only	0	544	0	544
E5	Campaign tag #dysonileiyibak, #dysonileiyinefes, #dysonileikoniksaclar, #dysonrutinim	11	0	0	11
E6	Dyson account tag/mention tag, @mention or story mention	153	176	9	338
E7	Hashtag only #dyson or a product-line hashtag; no other evidence	129	0	3	132

Paid-partnership label is Instagram's own label; **ad disclosure (#reklam/#işbirliği/#tanıtım)** is the tag in the caption. The two are counted separately. A row can carry several pieces of evidence.
