SCOPE AND RANKING

Universe
Turkish Instagram creators tracked by Starlecta. Period 4 Aug – 1 Nov 2026 (TRT, 90 days). Samsung: 986 account-content rows (450 Reels, 471 stories, 65 posts).

Reels
Top 30 by Reels views; each Reels is counted once. Engagement is (likes + comments) / views.

Post
Top 10 by likes plus comments. Engagement is (likes + comments) / followers. Where the like count is hidden, likes are counted as 0 and shown as "hidden".

Story
Instagram shows story view counts only to the account owner. Story posts are sorted by the follower count of the sharing account (most followers first; ties by account name). The table shows the first 40 posts; the full list is in the Excel file.

Note
The creators on the cards are the accounts that published the post; a brand relationship is confirmed only by Instagram's paid-partnership label. The Strong signal and Mention classes are not confirmation of a collaboration.

Figures
View counts were read from Instagram on 2 Nov 2026; for the 7 Samsung Reels that could not be read, the first recorded measurement was used (base 450 Samsung Reels). Instagram co-author information is taken from the post's own response where available.

IN NUMBERS

- Most viewed Samsung Reels: @yunuscanpolat, 40,932,902 views (26 Sep).
- The first 30 Reels gathered 227,055,336 views; the Samsung account appears as sponsor on the paid-partnership label in 5 of the top 30.
- Pool: 426 distinct Samsung Reels with a recorded view count (excluding news, shop and deal accounts).
- Story posts: 394 Samsung stories from 210 creators; the first 40 posts are listed by follower count.
